

Product information

Easycarseat is an inflatable child car seat. It is practical, low cost and unbelievably space saving.

The ideal 2nd car seat - Deflate, fold and store in the glove compartment

2 Year manufacturer's warranty, minimum 5 Year lifetime

€70 Choose any colour

EasyCarSeat passed EU and USA crash tests with flying colors and is approved for trade in all EU countries and US states. Relevant safety standards:

EU Safety Standard for children classified into Group 2 and 3: UN ECE Regulation No 44.04

US Federal vehicle safety standard: FMVSS-213.

Patented and manufactured by GUMOTEX in the Czech Republic.

GUMOTEX since 1952, is the producer of automobile interiors for the VW Group and is the

European leader in the manufacturing of inflatable boats in particular rafting boats.

www.easycarseat.com

Easycarseat Intl. is the sales arm for the Gumotex' inflatable Easycarseat product line.

The law requires all children travelling in cars to use the correct child restraint until they are either 135 cm in height or the age of 12 (which ever they reach first).

The problem:

A conventional child car seat is heavy in weight, therefore difficult for the majority of women to fix in the car, it is not portable when we fly abroad and we worry when the children are with the grandparents since majority will not necessarily own a child car seat(s). We may need the space on the rear seat on working days especially if we use the same car for work and taking children to the school/kindergarten. On holidays abroad, when we rent a car, the price for renting a child car seat is unreasonably high ([\\$ 50 / 3x days click for full article](#)).

The solution:

Easycarseat is the ideal 2nd car seat, it eliminates inefficiency and increase effectiveness in using the space in the cars' rear seats, it is portable in a lady's handbag and perhaps most importantly; it is easy for women to securely fix in the car easily and correctly.

Easycarseat provides the peace of mind; It is affordable for average families to purchase one for the grandparents' car, to have one extra in the glove compartment in case they carry their children's friends in their car. The Minimum lifetime of the Easycarseat is 5 Years – this is not a seasonal product.

Easycarseat also saves money; No more need for renting child car seats when we rent a car or pay excess baggage during air travel.

The Design:

60 years of relevant experience in the production of inflatable products and automobile interiors.

EASYCARSEAT warrants 2 year manufacturers' guarantee and 5 years minimum lifetime for Easycarseat.

Product information

manufactured by
GUMOTEX

Benefits:

- Light weight, compact in size when folded
- Easy fitting of 3x Easycarseats in a single row even in the smallest vehicle.
- Adjustable seat belt strap guide ensures the seat belt does not cut into your child's neck when he/she falls asleep during travelling.
- Extremely comfortable which children appreciate on longer journeys.
- Optional washing machine washable cotton seat cover is available, which makes it very easy to keep the children car seat clean.

Manufactured by Gumotex in Breclav, Czech Republic

Manufacturers Profile: Gumotex

Gumotex are amongst the very best inflatable kayak manufacturers in the world and are responsible for some of the most popular models on the market today including the Helios and Sunny ranges. The name Gumotex is now synonymous with exceptionally high quality products and the company also manufactures products used by rescue services. Steadily establishing themselves throughout the last 60 years as experts in the manufacture of key industry material polyurethane foam, the Czech based company rapidly showed their skill at the design and construction of high quality inflatable kayaks and boats. Gumotex kayaks and canoes are now a common sight on rivers and lakes across the globe – a testament to their popularity and build quality. The fact that Gumotex has never had any returns is another indication of just how impressive the Gumotex inflatable kayaks are.

Although the Easycarseat is a relatively new product, we have sold over 1,000 units in the past 1 year with a product return figure of zero to date.

Product information

manufactured by

Deflates and folds up in less than a minute!

Dimensions when folded (cm)

34×33×9

" The Easycarseat high back booster car seat is an innovative travel product which is designed to make family travel easier... "

Back part measurements:

Height of the back: 54 cm

Width of the back: 50 cm

Sitting area measurements:

Width of sitting area: 50 cm

Depth of sitting area: 37 cm

" You never know when you are going to need it, fits easily in your handbag or the car's glove compartment when not in use."

Car booster seats are designed to boost the child's body so that the built in 3 point safety seat belts can function as a grownup was sitting in the seat. With US and EU law requiring all children under 12 years old or 135cm in height to use a booster seat it's important to have one with you at all times.
